- 5. There are two different options available. Adding new custom content, and logging PCs that have been taught custom content.

6. When adding new custom content, first click on what position you are using to submit the content. OWBN.net accounts can have multiple roles attached to them, so if you are an AST in a few different games, make sure you are submitting as the chronicle the custom content was created.

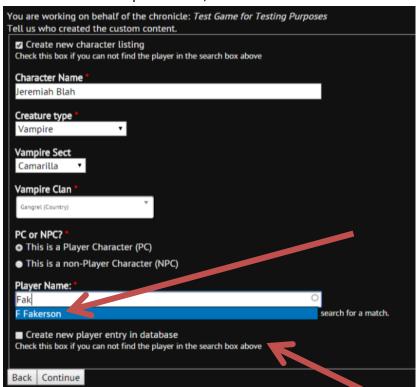

7. The character that created the Custom Content needs to be entered. If the character has already been added to the Chronicle's R&U listings, or added through the Character Connections program, or added through the Vineyard database, they can be found by typing in the first few letters of the PC's name. It is strongly encouraged to type in the name first, to see if the PC has already been added to the Chronicle's Vineyard Listing. If the PC already exists in your chronicle's listing, then it will pop up in a drop down list. Click on the character's name in the drop down list, and then click on "Continue".

8. If the PC is not listed, then click on "Create new Character Listing". This will immediately display fields to fill out. Pick the Vampire's Sect and Clan, and finally choose PC from the "PC or NPC" list. Remember, NPC custom content is **not** logged.

If it is a PC, then please add the player's name. If the name is associated with an existing account on the OWBN.net site, it will automatically appear in a drop down list. Click on the name in the drop down list, and click on "Continue".

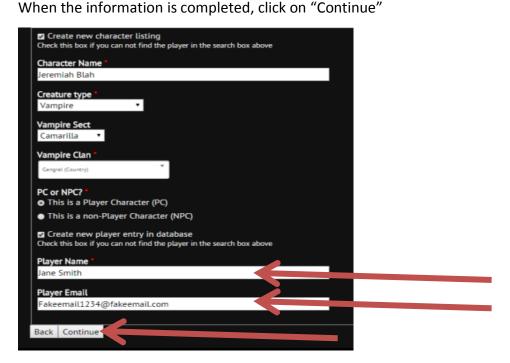

9. However, if the name does not appear, click on "create a new player entry in database".
